WARRANTY

Backed by a reliable 20-year warranty for lasting peace of mind.

WEATHER RESISTANT

Our weather-resistant uPVC profiles withstand heat, rain, humidity, Indian climates.

UV RESISTANT

UV-resistant uPVC profiles prevent fading, cracking, and long-term sun damage.

NOISE PROOF

Noise-proof uPVC profiles reduce outside sound, ensuring quieter, peaceful interiors.

ECO FRIENDLY

Eco-friendly uPVC profiles are recyclable, energy-efficient, and environmentally responsible.

LOW MAINTENANCE

Low-maintenance uPVC profiles require minimal cleaning and long-lasting performance.

BUILT TO STRENGTH

High-durability uPVC profiles ensure long-lasting strength and reliable performance.

FIRE RESISTANT

Fire resistant uPVC profiles enhance safety and slow flame spread.

EASY INSTALLATION

Designed for easy installation, reducing time, effort, and overall labor costs.

GUARANTEE AND PERFORMANCE

CERTIFICATE

This guarantee and performance certificate confirms that the products supplied meet the required quality standards and performance specifications. All products are manufactured using high-quality raw materials and are tested under strict quality control procedures. The manufacturing process follows established industry standards to ensure durability, safety, and reliable performance.

The products are designed for long-term use and are resistant to normal wear and environmental conditions when used as intended. Proper installation and regular maintenance, as recommended, are necessary to achieve optimal performance.

This certificate also confirms that the products comply with applicable safety, environmental, and quality regulations. Materials used are non-hazardous and environmentally responsible, where applicable.

The manufacturer guarantees that the products are free from manufacturing defects at the time of delivery. Any defects arising from faulty manufacturing within the warranty period will be addressed according to the company's warranty policy.

This certificate does not cover damages caused by misuse, improper installation, unauthorized modifications, or external factors beyond normal operating conditions.

This certificate is issued as a declaration of product quality and performance assurance.
